Per-domain calls this session: {"music": 3, "healthcare": 1, "comms": 1, "accounting": 1, "inspection": 1}

One engine. Five validated verticals. Each domain loads its own schema + rules; the same core scanner enforces required-field and format checks while domain validators add business logic (royalty gaps, double-entry, condition scales).

Music rights & royaltiesdomain=music

Backing product: HeyRoya / Kataloghub · Validates: ISRC, ISWC, IPI, splits, royalty-gap, §507(b) statute

56

rows scannedissues found

3× HIGH1× LOW

ROW	FIELD	SEVERITY	ENGINE FINDING (VERBATIM)
4	isrc	HIGH	Missing value
2	isrc	HIGH	ISRC must be 12 chars: 2-letter country + 3 alphanumeric + 7 digits (e.g. USRC12345678)
1	iswc	HIGH	No ISWC — composition not linked. Mechanical royalties cannot be attributed. → Register the composition with a PRO (ASCAP/BMI/SESAC) to obtain an ISWC.
3	duration_seconds	LOW	Short recording: 45s. Some platforms have minimum play time requirements. → Confirm track meets platform requirements (> 120s recommended).

Healthcare claim denialsdomain=healthcare

Backing product: Denials (RCM) · Validates: CARC/RARC codes, NPI, CPT, ICD-10, claim amounts

73

rows scannedissues found

3× HIGH

ROW	FIELD	SEVERITY	ENGINE FINDING (VERBATIM)
6	denial_code	HIGH	Missing value
4	provider_npi	HIGH	Missing value
5	cpt_code	HIGH	CPT must be 5 digits, e.g. 99213

Communications intelligence domain=comms

Backing product: **CIP** · Validates: 9 diagnostic channels, ok/warn/issue severity, 0–100 score

12

rows scanned

3

issues found

3× HIGH

ROW	FIELD	SEVERITY	ENGINE FINDING (VERBATIM)
9	url	HIGH	url must start with http:// or https://
10	channel	HIGH	channel must be one of: audit, seo, funnel, email, deliverability, social, browser, inventory, ivr
11	severity	HIGH	finding severity must be ok, warn, or issue

Bookkeeping ledger (SIE/BAS) domain=accounting

Backing product: **PerfectBook (bookie)** · Validates: 4-digit BAS accounts, kronor debit/credit, vouchers, VAT

8

rows scanned

3

issues found

3× HIGH

ROW	FIELD	SEVERITY	ENGINE FINDING (VERBATIM)
6	voucher_date	HIGH	Missing value
5	account	HIGH	BAS account must be a 4-digit number, e.g. 1930, 3001, 2641
7	amount	HIGH	amount in kronor, up to 2 decimals; positive = debit, negative = credit

Building inspection protocol domain=inspection

Backing product: **besiktning** · Validates: under/normalt/over condition scale, AI-confidence, validation gate

6

rows scanned

3

issues found

2× HIGH

1× MEDIUM

ROW	FIELD	SEVERITY	ENGINE FINDING (VERBATIM)
4	condition	HIGH	Missing value
3	condition	HIGH	condition (skickbedömning) must be under_normalt, normalt, or over_normalt
5	inspection_date	MEDIUM	inspection_date (besiktningsdag) must be YYYY-MM-DD
